EDUCATION

BSc in Computer Engineering Alzahra University

09/2016 - Present

GPA: 18.22

PERSONAL PROJECTS

Website design

- I designed sara-kh97.github.io and my own website. Then took part in coding them and understood how a personal website is created from scratch.

Face detection with django

- This is a web application I worked on which detects faces of a photo given to it in using django and face detection algorithms.

WORK EXPERIENCE

Teacher Assistant Alzahra University

09/2017 - 09/2019

Logic circuits and programming and computer basics were two subjects I became a TA for, several times in these two years.

Achievements/Tasks

- being a dedicated person, I tutored about 60 students each semester by finding a new approach which proved to be most effective.
- I created lesson plans, took tests and helped with grading the students.
- Students learn the most when they put effort in understanding something by themselves, I included this method in their learning process.

Technical Support Associate Alzahra University

09/2018 - Present

Achievements/Tasks

- Providing assistance to teachers and students using this university's virtual learning environment.
- Fixing and searching for solutions regarding problems that occurred during classes while using adobe connect software.
- Making videos and tutorials for beginners using this system.

SKILLS

Leadership

Research

UX/UI Design

responsibility

Time Management

Communication

Django

HTML/CSS

Word/Powerpoint

Adobe XD

C++

Creativity and Innovation

Accuracy and Precision

ACHIEVEMENTS

Being a part of top 10% of my class in University

LANGUAGES

English

Full Professional Proficiency

Japanese

Elementary Proficiency

INTERESTS

Chess

Reading

Video games

Photography

Painting

Swimming

Writing

Designing

Baking

Piano

Movies
